The Best  
Art and Craft  
Galleries in  
England & Wales

Founded in 1986, the Independent Craft Galleries Association represents the foremost Applied Arts Galleries in the UK that are not dependent on public funding.

The Galleries in the Association are noted for their quality and excellence, showing individual contemporary work from a broad spectrum of makers, from the up-and-coming to the well established and the internationally famous.

In order to promote high standards of excellence, membership is only granted to galleries after election by current Association members. Only galleries elected to the Association may display the coveted **Elected for Excellence** logo.

The Association's aim is to develop interest in the applied arts through the specialist independent galleries and we hope that this map will help you to discover the enormous depth and range of talent being promoted by the members of the Association.

Details of member galleries are available on the Association's internet website at [www.icga.co.uk](http://www.icga.co.uk)
